

Atascadero City Council

Staff Report – Public Works Department

Qualified Firms List - Engineering Services

RECOMMENDATION:

Council authorize the City Manager to enter into ongoing contracts for contract engineering services with firms on the “General Engineering Services Qualified Firms List.”

DISCUSSION:

The City uses Engineering firms for capital improvement project design services, preparation of plans and technical specifications, preparation of construction estimates and construction support for a variety of public infrastructure capital improvement projects. The City frequently has capital projects funded which will require engineering services.

Contracting for Engineering Services from an established list is allowed in Section V of the City’s Purchasing Policy as an ongoing professional service. This allows the City to hire Engineering firms for funded capital projects as needed.

On July 18, 2008 and September 17, 2008, staff solicited proposals from qualified engineering firms for the purpose of establishing a list to provide Engineering Services for the Public Works Department on an as needed basis.

Proposals were received from twelve firms. The proposals were reviewed for qualifications, previous experience, references and cost. All twelve firms were found to be qualified and staff is recommending that they all be placed on the “Engineering Services Qualified Firm List.”

ITEM NUMBER:
DATE:

A - 3
10/28/08

FISCAL IMPACT:

The costs of Engineering Services are billed directly to the capital project accounts.
