Atascadero
Historic City Hall Project

Summary of Progress
August 2011

The following is a summary of construction progress for the Historic City Hall Project during the month of August 2011:

- The last two Cedar trees are removed from the project site.
- Historic fabric is being tagged, documented, and delivered to local storage facility.
- Micro pile drilling continues at the basement and exterior of building to stabilize the foundation.
- Roof level balustrades are removed, tagged, and stored for repair and reinstallation.
- Exterior scaffold is erected at roof level to begin removal of roof tiles and upper drum brick.
- Containment for interior lead and asbestos abatement begins.
