Atascadero
Historic City Hall
Project

Summary of Progress
June 2011

The following is a summary of construction progress for the Historic City Hall Project during the month of June 2011:

- Micro pile operations begin!
- Contractor mobilizes equipment and materials for foundation piles.

- 6 – 8 inch diameter test piles are drilled onsite.
- The test piles drilled onsite average 75 feet in depth, including a 15 foot depth into bedrock.

- Following installation of test piles, load tests will be done on all 6 piles at loads reaching over 400,000 lbs. of pressure to confirm design loads.
