The following is a summary of construction progress for the Historic City Hall Project during the month of May 2012:

- The new basement concrete slab is complete.
- New elevator bore hole is drilled and sleeved for new jack.
- Upper dome framing repairs are near complete.
- Brick repairs continue at exterior upper and lower façade.
- Structural Fiberglass Reinforced Polymer (FRP) installation is underway at the upper dome interior brick walls.
- Upcoming activities include installation of elevator jack, upper dome roof tiles, and reframing of low roofs.
