2025 RESIDENTIAL SWIMMING POOL & SPA SAFETY AFFIDAVIT

California Health & Safety Code §§ 115920–115929

Project Address: _____

Building Permit No.: _____

Property Owner: _____

Contractor: _____

Contractor License No.: _____

OWNER AND CONTRACTOR ACKNOWLEDGMENT

Pursuant to California Health and Safety Code Section 115924, the undersigned acknowledge that information regarding swimming pool and spa safety requirements has been provided to the property owner.

The undersigned further acknowledge that, pursuant to Health and Safety Code Section 115922, a new swimming pool or spa, or the remodeling of an existing swimming pool or spa at a private single-family home, shall be equipped with at least two (2) approved drowning prevention safety features selected from the list below.

Check all features proposed for this project:

☐ 1. Isolation Enclosure
An enclosure meeting the requirements of Health and Safety Code Section 115923 that isolates the swimming pool or spa from the private single-family home.

☐ 2. Removable Mesh Fencing
Removable mesh fencing meeting ASTM F2286, installed with a self-closing, self-latching gate capable of accommodating a key-locking device.

☐ 3. Safety Pool Cover
A manually operated or power-operated safety pool cover bearing a label demonstrating compliance with ASTM F1346-23.

☐ 4. Exit Alarms
Exit alarms installed on doors and windows providing direct access to the swimming pool or spa without an intervening enclosure. The alarm shall sound continuously or provide a repeating verbal warning when opened or left ajar.

☐ 5. Self-Closing, Self-Latching Doors
Self-closing and self-latching devices installed on doors providing direct access to the swimming pool or spa, with the release mechanism located not less than 54 inches above the floor.

☐ 6. Swimming Pool Alarm
A swimming pool alarm meeting ASTM F2208 standards that sounds upon detection of accidental or unauthorized entrance into the water.

☐ 7. Other Approved Means of Protection
Other means of protection independently verified by an approved testing laboratory to provide a degree of protection equal to or greater than the features listed above and accompanied by appropriate certification documentation.

PROHIBITED COMBINATIONS

Pursuant to Health and Safety Code Section 115922(b), the following combinations do not satisfy the requirement for two separate drowning prevention safety features:

☐ Exit alarm and self-closing/self-latching device on the same door.

☐ Exit alarm and door latch on separate doors.

☐ Safety pool cover and swimming pool alarm.

CERTIFICATION

We certify that the drowning prevention safety features identified above are proposed for installation as part of this project and understand that the selected features are subject to field verification and inspection prior to final approval.

We further understand that final approval cannot be granted until the required drowning prevention safety features have been installed and verified by the Building Official pursuant to Health and Safety Code Section 115922(c).
