Minor:

Fee \$ Valuation**
Non-structural
Valuation > \$16,000

Major:

Fee \$ Valuation**
Structural changes

**** Building Permit Valuations – Definition:**

Building permit valuation shall include total value of the work for which a permit is being issued, such as electrical, gas, mechanical, plumbing equipment and other permanent systems, including materials and labor. (Fee schedules are often based on a variation of the work to be performed. This concept is based on the proposition that the valuation of a project is related to the amount of work to be expended in plan reviews, inspections and administering the permit, plus an excess to cover the department overhead.)

- ☐ Advance Plan Check Fee – Determined prior to intake meeting. Additional fees applicable at permit issuance.

a. Site Plan (3 sets; if applicable): see elements of a site plan handout

- ☐ Septic Systems – If your residence is connected to a private sewage system (septic systems) AND if your remodel includes adding a bedroom, the existing septic tank, length and number of leach fields must be verified by a licensed professional septic tank contractor or engineer. If public sewer is available, a sewer connection may be required.

III. Construction Drawings and Support Docs (3 complete drawing sets with 2 sets support docs):

- ☐ Existing Floor Plan Layout and Floor Plan Layout
- ☐ Title 24 State Energy Analysis – If applicable

Additional Information / Required Prior to Issuance:

- ☐ One (1) Additional Floor Plan For County Assessor – Min. 11"x17"
